

The voice of crop protection  
and animal health.

Agcarm is the industry association of companies which manufacture, distribute and sell products that keep animals healthy and crops thriving.

We work with governments and stakeholders from around the globe to shape policy and meet the shared goals of health and safety to people, the environment and the food chain.

Healthy crops : Healthy animals : Healthy business

[www.agcarm.co.nz](http://www.agcarm.co.nz)

Our industry protects crops and animals from damaging pests and diseases.

Our mission is to protect and enhance the health of crops and animals through innovation, development and responsible use of quality products.

Agcarm members manufacture, distribute and sell the majority of veterinary medicines and crop protection products in New Zealand, including vaccines and agrichemicals.

Members promote the responsible use of their products right through the product life cycle, from research to disposal, and are committed to safe and sustainable agriculture.

Agcarm is a positive voice for its members and lobbies for progressive and sensible policy. Our ability to source information from experts around the globe gives legislators access to the best advice.

Agcarm offers two scholarships to support education and raise awareness of careers in horticulture and veterinary science.

**Agcarm's priorities:**

Safe Food / Provision of Innovative Compounds / Resistance Management / Healthy Animals and Crops / Product Stewardship / Bee Health / Sustainability.
